

SUPPLY CHAIN ANALYTICS

Take control with focused supply chain insights

**PREVENT DISRUPTIONS, CAPITALIZE ON TRENDS,
AND ASSURE CONSTANT PERFORMANCE IMPROVEMENT.**

Visibility to see what's coming before it hits you.

If you need to improve business performance, but don't have visibility to information that will uncover your best opportunities and expose your biggest weaknesses, then supply chain analytics is your solution.

Blue Ridge provides supply chain visibility through constant analysis of real-time data. Our supply chain analytics software is laser-focused on planning, forecasting and replenishment, empowering you to assess the proper course of action, instill accountability and achieve consistent improvement.

Supply chain analytics – more like supply chain answers.

Most analytics solutions are more akin to a black box rather than a trusted source for insights. That's why our supply chain analytics application provides the reporting, analysis and alerting tools that answer important questions related to your supply chain, inventory, and customer demand. Start enabling smarter, enterprise-wide decision making with:

- Pre-built best-practice analytics, reports and alerts
- Industry performance benchmarking
- Easily created custom analytics and dashboards
- Automated communication of reports, dashboards, insights
